How was the funding used?	The funding was used to support struggling Year 11-13 learners who were at risk of non-achievement to participate in individualised programmes of work in our flexible learning space. These funds were used to support the staffing in this space.
What were the outcomes resulting from funding?	The students who were able to work in this space, were able to experience an increase in their success rate in NCEA achievement and esteem and their self-belief in their ability to learn.
Issues, concerns, highlights, and other comments	We are grateful for the support this funding provides our Year 11-13 students, and this intervention continues to improve outcomes for our at-risk learners.
