How was the funding used?	The funding was used to support struggling learnings in years 11-13 to work in our flexible learning space where teachers set individualised programmes of work. The money was used to provide staffing to this space.
What were the outcomes resulting from funding?	Students who are able to work in this space experienced an increase in both their esteem around ability to learning but also had increased success with NCEA.
Issues, concerns, highlights, and other comments	This is a very successful support for students that we are able to run because of the year 11+ funding.
